AVCHD UpShift

KeyMacro is a simple tool that allows you to easily create macros from several pictures on a folder. These Macros are identified using a series of items and are used for editing projects by pressing the desired item. These macros are then stored on the same folder and this folder will appear as a simple image item. Features: - Open source. - Works on Windows, Mac, and Linux. - You can select from 50 different items, from The Clock to the Volume. - Also, you can create a group of items and set a menu to show all of the items that make up that group. - Using the item tags, you can create a category, where you can put multiple items that make up that category. - When the application starts, the file picker appears, so you can quickly select all of the items that you wish to use. - The program contains the following tools: a history of your files, the ability to edit a Macro, and the ability to create new ones. Suggestion: When the file picker appears, please select all the images that you wish to use in the Macro. Documentation: Please see the readme.txt file for details on how to use this product. Download: Screenshots: *Macro Files.* Important: *Note that you may need to be logged in as Administrator to use this program. *Notes: *When using Windows XP, Microsoft Security Essentials must be disabled. *This program is not affiliated with KeyMacro.com or their

company. *Windows Vista and Windows 7 may have security issues. Please refer to Microsoft's documentation. DocRPC is a user-friendly, console-based (command-line) client for Microsoft's Remote Procedure Call (RPC) protocol. It is optimized for execution on UNIX/Linux and it can be used with Windows on command-line. As the project's web page points out, this is a replacement for RPCEXplorer, which is discontinued. DocRPC has been released as free software by its author Alex Bélanger. About DocRPC: This project is a replacement for a discontinued project called RPCEXplorer, which was originally developed by Eric W. Bocchino in 1999. It was published as freeware in August 2002, and later 2edc1e01e8
